Summary

Detail-oriented Software Tester with strong foundations in **QA methodologies** and the **full software development life cycle**. Proven ability to execute test cases, identify and track bugs, and perform rigorous **regression testing** to ensure high-quality, **defect-free software delivery** for end users.

Skills

QA & Testing: Manual Testing, Regression Testing, Test Case Execution, Bug Reporting, QA Methodologies
Tools & Processes: GitHub Issue Tracking, Data Capture, Failure Escalation, Status Reporting, SDLC
Technical Foundations: Python, C/C++, AWS Cloud, Relational Databases

Work Experience

App / Web Developer (Part Time)

[CropSky](#) | VIT-TBI Hub | 2024 - Present

- Ensured **zero critical failures** during **3 major product launches** by rigorously executing **manual test cases** and comprehensive **regression testing** on core software builds.
- Improved **application stability** by actively reproducing **edge-case bugs** and communicating accurately **documented failure reports** to the development team.
- Streamlined release cycles by establishing **standardized testing procedures and guidelines**, significantly **reducing post-deployment errors**.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Delivered **highly reliable software tools** to **15+ local businesses** by conducting extensive **pre-release manual testing** and meticulously tracking operational defects.
- Conducted **repetitive testing exercises** to validate automation updates, **qualifying new builds** without compromising on delivery speed or quality.

Projects

[Smart Local Business Inventory & Billing System](#)

Retail Application

Manual Testing, Regression Workflows, Bug Tracking, UI Verification

- Maintained a seamless user experience by executing **comprehensive manual tests** on UI workflows and **capturing step-by-step failure data** for resolution.
- Prevented critical production bugs** by establishing a **strict regression testing checklist** for all newly added inventory management features.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Coursework: Software Engineering, SDLC, Statistical Analysis

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Rigorous coursework emphasizing **software quality**, **edge-case testing**, and **memory management**.

Achievements

- Open Source Contributions** ([Uber CausalML](#), [Hack Club](#)) – Improved software reliability by successfully **reproducing and resolving 8 complex GitHub bugs**.
- Rank 3 at VIT Vellore (All India Rank 4979)** – [Goldman Sachs India Hackathon 2026](#) | Score: 250.13

Certifications

- [Google Cloud Computing Foundations](#)
- [AWS Solutions Architect](#) and [Developer](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- [Google Generative AI Leader](#)
- [Software Engineer Certification - HackerRank](#)
