Summary

Final-year Int.MSc student in Computational Statistics and Data Analytics at VIT University (graduating 2027) with hands-on experience in SQL, statistical analysis, and data pipelines. Proficient in Google Workspace and Python-based analytical tools; eager to deliver actionable business insights.

Skills

Data Analysis & Tools: SQL, Python (Pandas, NumPy, Matplotlib), Google Workspace (Sheets, Docs, Slides), Excel, Power BI, Tableau, EDA, Statistical Analysis, Data Visualization, KPI Reporting, Trend Analysis
Technical: PostgreSQL, R, Git, Docker, Linux, Apache Kafka, Airflow, dbt, ETL Pipelines, REST APIs, Scikit-learn, XGBoost, Google Cloud Platform

Work Experience

App/Web Developer & Data Analyst | [CropSky](#) | VIT-TBI Research & Innovation Hub | 2024 - Present

- Analyzed agricultural datasets using SQL and Python to identify crop yield patterns, generating weekly data reports that informed **3 product feature decisions** for the agritech platform.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Conducted data analysis across **15+ local businesses** to identify operational bottlenecks; presented quantified improvement recommendations to non-technical stakeholders using spreadsheets and visual data summaries.

Projects

[ETL Pipeline for E-Commerce Analytics](#)

Data Pipeline & BI

Apache Airflow, dbt, PostgreSQL, Python, Pandas, Power BI, Tableau, Docker

- Built a production-grade ETL platform processing data from **5+ sources** using Airflow DAGs and dbt star-schema modeling; generated business KPIs (**CLV**, conversion rates, revenue analytics) with interactive dashboards for stakeholder decision-making.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Coursework: Statistical Analysis, Database Systems, Machine Learning, Data Mining, Regression Analysis

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#) – Python, SQL, AI, R, and data-driven application development.

Publications

- Published a [peer-reviewed research paper](#) on [Stock Market Analysis and Prediction using ML](#) – applied statistical modeling, time-series analysis, and data visualization. [El Ruha International Conference on Scientific Research](#), pp. 730-740, 2025.

Achievements

- Rank 3 at VIT Vellore (All India Rank 4979)** – Goldman Sachs India Hackathon 2026 | Score: 250.13
- Currently Working** – HackerRank Orchestrate Agent-Building Hackathon , Flipkart Grid 8.0

Certifications

- [Google Generative AI Leader](#)
- [Google Cloud Computing Foundations](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- AWS [Solutions Architect](#) and [Developer](#)
- [Software Engineer Certification - HackerRank](#)
