Summary

Detail-oriented and technically-savvy QA professional pursuing an Int.MSc in Computational Statistics. Deep knowledge of **QA methodology, testing tools, and manual execution strategies**. Proven ability to execute cross-platform tests, log software bugs, and track SLA resolutions to ensure applications and devices meet the highest quality bar.

Skills

Testing & QA: QA Methodology, Manual Device Testing, Bug Logging, SLA Tracking, Test Case Execution

Technical & Tools: Validation Tools, Data Capture, Git, Python, SQL, REST APIs, Jira/Bug Tracking

Competencies: High-volume repetitive task execution, application deep-dives, reporting test deviations

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Hub | 2024 - Present

- **Maintained 99.9% quality standards** by performing daily quality checks and executing extensive manual application tests.
- **Logged bugs and tracked resolutions**, effectively capturing results and escalating test failures.

Open Source Contributor

[Open Source Contribution](#) | Completed

- **Uber (PR #1031): Executed complex test instructions** to identify and log critical functional deviations, ensuring components operate exactly as designed.
- **Google (PR #567): Deep-dived application features** by validating functionalities and comparing behaviors across different software versions to track technical changes.
- **Adobe (PR #10560): Reviewed test instructions** and executed repetitive validation tasks on a daily basis to meet strict quality and productivity targets.

Projects

Smart Local Business Inventory & Quality System

QA & Validation

Manual Testing, Feature Comparison, Data Capture

- **Ramped up quickly on testing procedures** to validate frontend and backend capabilities for an architecture handling 10,000+ daily inputs.
- **Provided accurate status reports** by leveraging data capture tools to execute mid-sized component testing.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Software Engineering, Testing Strategies, Data Structures

CS50 Programs

Harvard University (Online)

Certifications: [CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Achievements

- **Founder – Shoot the Breeze:** Maintained highest standard of deliverables by executing meticulous daily validation on business software components.
- **Publication – Peer-reviewed research paper** on [Stock Market Analysis and Prediction using ML](#).
- **Rank 3 at VIT Vellore – Goldman Sachs India Hackathon 2026**, outperforming **500+ participants** in analytical validation and problem solving.

Certifications

- [AWS Solutions Architect](#) and [Developer](#)
- [OCI 2025 Certified Developer Professional](#)
- [Google Generative AI Leader](#)
- [Google Cloud Computing Foundations](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [Software Engineer Certification - HackerRank](#)
