Summary

Highly analytical **Data Analytics Analyst** with robust expertise in driving digital acquisition, audience strategy, and website optimization. Proficient in Python, SQL, and building ML models (XGBoost, K-Means) to derive actionable insights from digital ecosystems.

Skills

Digital Analytics & ML: Machine Learning, Funnel Optimization, Experimentation Frameworks

Programming & Data: Python, SQL, PostgreSQL, Real-Time Recommender Systems, Clickstream Analytics

GenAI & Strategy: Emerging AI (Google GenAI), Semantic Modeling, Personalization, Audience Strategy

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Hub | 2024 - Present

- Led analytical work to improve website optimization and personalization, utilizing data-driven insights to accelerate digital spatial data collection by **40%**.
- Collaborated within cross-functional teams to design scalable digital architectures, driving end-to-end performance measurement and evaluating results before 3 major launches.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Managed multiple priorities in a dynamic environment, building scalable analytical solutions that enhanced targeting accuracy and operational efficiency by **15%**.

Projects

AI Workflow Automation Platform

GenAI & Semantic Modeling

GenAI, Python, APIs, Semantic Modeling, Digital Intelligence, Automated Insights

- Championed innovation by applying emerging AI and GenAI techniques (semantic modeling, automated insights) to enhance analytical productivity and targeting precision.
- Built the next generation of digital capabilities, synthesizing insights to clearly communicate actionable findings and strategy implications to key stakeholders.

Demand Forecasting System

Machine Learning & Audience Strategy

Python, XGBoost, K-Means, SQL, Predictive Analytics, Funnel Optimization

- Engineered robust ML models (XGBoost, K-Means) to navigate complex business questions regarding audience segmentation and prospect conversion.
- Drove experimentation and funnel optimization by designing test structures and leveraging large datasets to improve digital acquisition strategies.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Coursework: Statistics, Machine Learning, Computer Science

CS50 Programs

Harvard University (Online)
