Summary

Final-year Int.MSc student at VIT University (graduating 2027) who enjoys building things and solving problems through code. Built 18+ projects across multiple programming languages and shipped working products end-to-end. Proficient in Google Workspace with a strong drive to learn new technologies and adapt quickly.

Skills

Programming: Python, JavaScript, TypeScript, React, SQL, R, C

Tools & Platforms: Git, Docker, Linux, Google Workspace, PostgreSQL, Redis, Postman, Google Cloud Platform, AWS

Work Experience

App/Web Developer

[CropSky](#) | VIT-TBI Research & Innovation Hub | 2024 - Present

- Built and shipped application features for an agritech platform used by real users, improving data collection workflows and reducing manual processes by **60%** through automation.
- Collaborated cross-functionally with a multidisciplinary team to translate ambiguous product requirements into working code, iterating based on user feedback across **3 release cycles**.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Identified process inefficiencies across **15+ local businesses** and built technology solutions to automate workflows, demonstrating end-to-end ownership from problem identification to product delivery.

Projects

[Smart Business Inventory & Billing System](#)

End-to-End Application

React, Next.js, TypeScript, Node.js, Python, FastAPI, PostgreSQL, Redis, Docker

- Built a complete inventory and billing application for retail stores with product catalog, stock tracking, GST invoice generation, and customer management – handling the full cycle from design to deployment and testing across **6 integrated modules**.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Coursework: Data Structures & Algorithms, Database Systems, Computer Networks, Machine Learning, Statistical Analysis

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#) – algorithms, Python, SQL, AI, and application development.

Publications

- Published a [peer-reviewed research paper](#) on [Stock Market Analysis and Prediction using ML](#) – applied statistical modeling, time-series analysis, and data visualization. [El Ruha International Conference on Scientific Research](#), pp. 730-740, 2025.

Achievements

- **Rank 3 at VIT Vellore (All India Rank 4979)** – Goldman Sachs India Hackathon 2026 | Score: 250.13
- **Currently Working** – HackerRank Orchestrate Agent-Building Hackathon , Flipkart Grid 8.0

Certifications

- [Google Generative AI Leader](#)
- [Google Cloud Computing Foundations](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- AWS [Solutions Architect](#) and [Developer](#)
- [Software Engineer Certification - HackerRank](#)
