PROFESSIONAL SUMMARY

- Data Analyst skilled in SQL, Python, Power BI, Tableau, and Pandas with experience building analytics dashboards, reporting systems, forecasting models, and data-driven business insights.
-

SKILLS

- Analytics & Programming: Python, SQL, Pandas, NumPy, Excel
 - Visualization & BI: Power BI, Tableau, Matplotlib, Data Visualization, Reporting
 - Data Processing & Analytics: Data Cleaning, ETL Workflows, Forecasting, KPI Analysis
 - Tools & Technologies: PostgreSQL, FastAPI, Git, GitHub, Docker, Jupyter Notebook
-

PROJECTS

Recommendation Engine

GitHub | Live Demo

Python, TensorFlow, FAISS, PostgreSQL

- Developed a recommendation analytics system using collaborative filtering and vector similarity search to generate personalized insights
- Improved recommendation relevance by 40% through optimized embedding workflows and scalable retrieval systems

HR Workforce Intelligence Platform

GitHub | Live Demo

Power BI, FastAPI, PostgreSQL, Scikit-learn

- Built a workforce analytics platform to analyze employee performance trends, attendance patterns, and operational KPIs using Power BI and PostgreSQL
- Improved workforce reporting efficiency by 50% through automated dashboards and scalable analytics workflows

Demand Forecasting System

GitHub | Live Demo

Python, Prophet, Scikit-learn, PostgreSQL

- Developed a demand forecasting system using statistical modeling and time-series analysis to predict business trends and improve forecasting accuracy
- Reduced forecasting error by 35% through feature engineering, forecasting pipelines, and scalable data processing workflows

Real-Time Stock Market Data Pipeline

GitHub | Live Demo

Apache Kafka, Apache Spark, PostgreSQL, Airflow

- Designed a real-time analytics pipeline processing streaming stock market datasets using Apache Kafka, Spark, and PostgreSQL
- Improved analytics processing efficiency by 55% through automated ETL workflows and scalable data orchestration

Open Source Contribution

Contributed to collaborative development workflows and community-driven software initiatives through Hack Club

WORK EXPERIENCE

Founder

Shoot the Breeze | 2023 - Present

- Developed analytics dashboards, reporting systems, and data-driven applications using Python, SQL, and Power BI
- Managed data processing workflows, business reporting pipelines, and scalable analytics solutions

App/Web Developer

CropSky | Pre-incubated at VIT-TBI | 2024 - Present

- Contributed to analytics workflows, API integrations, and data-driven application features using Python and SQL
- Improved reporting efficiency, performance optimization, and scalable data processing systems

CERTIFICATIONS & ACHIEVEMENTS

- Google Generative AI Leader
- FreeCodeCamp Legacy Full Stack
- Google Cloud Computing Foundations
- OCI 2025 Certified Developer Professional
- AWS Solutions Architect and Developer
- Software Engineer Cert : Hackerrank
- Published a research paper on stock market analysis and prediction in the 14th proceedings of the El Ruha International Conference on Scientific Research, pp. 730–740, 2025.

EDUCATION

Int.Msc Computational Statistics and Data Analytics

VIT University | 2022-2027

- Studied statistical analysis, forecasting, machine learning, and scalable analytics workflows using Python and SQL.

CS50 Programs

Harvard University | CS50

- Completed Harvard University CS50 programs including CS50x, CS50P, CS50AI, CS50SQL, and CS50R with hands-on experience in Python, SQL, analytics systems, and computational problem-solving.
-
