Summary

Highly collaborative Analytics professional pursuing an Int.MSc in Computational Statistics. Passionate about harnessing data to provide real-world impact for global organizations. Highly skilled in **Python, SQL, PySpark, and BI tools** for robust data processing. Eager to partner in multidisciplinary teams to engineer end-to-end analytical models, write clean code, and drive measurable business intelligence performance.

Skills

Core Competencies: Data Processing & Management, Business Intelligence, QA/Risk Management, Analytical Modeling, Data Structures, Automation, Python, SQL

Technical & Tools: PySpark, NoSQL, Tableau, PowerBI, Microsoft Fabric, Kedro, KNIME, Pandas, Databricks

Language: Fluent in English (Written and Verbal) for explaining complex concepts to non-tech audiences

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Hub | 2024 - Present

- **Accelerated data processing by 40%** by writing clean, maintainable Python and SQL code to automate complex analytical reporting tasks.

Open Source Contributor

[Open Source Projects](#) | Completed

- **Uber (PR #1031): Eliminated targeted variance** in state-of-the-art CausalML models by iteratively resolving structural anomalies in Python data pipelines.
- **scikit-learn-contrib (PR #125): Improved predictive stability** by diagnosing and preventing excessively large variance estimates in calibration workflows.
- **Grafana (PR #413): Built robust observability paths** by developing end-to-end data telemetry migration scenarios for advanced monitoring systems.

Projects

HR Workforce Intelligence Platform

Business Intelligence & Analytics

Python, SQL, PySpark, Tableau, PowerBI, Scikit-learn

- **Delivered powerful business intelligence** by developing interactive **Tableau and PowerBI dashboards** to solve complex workforce problems, improving strategic decision-making speed by **35%**.
- **Engineered end-to-end analytical models** in Python and PySpark, mapping complex business needs to state-of-the-art machine learning algorithms to achieve **95% forecast accuracy**.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Data Structures, Machine Learning, Statistical Analysis

CS50 Programs

Harvard University (Online)

Certifications: [CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Achievements

- **Founder** – [Shoot the Breeze](#): **Translated 15+ complex business needs** into digital realities, significantly improving efficiency for traditional businesses.
- **Publication** – [Peer-reviewed research paper](#) on [Stock Market Analysis and Prediction using ML](#).
- **Rank 3 at VIT Vellore** – [Goldman Sachs India Hackathon 2026](#), outperforming **500+ participants** in algorithmic problem solving and data structures.

Certifications

- AWS [Solutions Architect](#) and [Developer](#)
- [Google Generative AI Leader](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- [Google Cloud Computing Foundations](#)
- [Software Engineer Certification - HackerRank](#)
