Summary

Innovative and hands-on platform builder pursuing an Int.MSc in Computational Statistics. Passionate about building high-quality, robust software and scalable data platforms. Highly skilled in **C++, Python, SQL, and modern ORM technologies**. Eager to leverage strong system analysis, SDLC, and **Test-Driven Development (TDD)** skills to design interactive applications and document clean, efficient solutions.

Skills

Core Competencies: Software Development Lifecycle (SDLC), Test-Driven Development (TDD), System Analysis, Technical Documentation, Requirement Gathering

Technical & Tools: Python, Java, SQL, Relational Databases, REST APIs, Git, React, Node.js

Methodologies: Agile Development, Interactive Application Design, Flowcharts, Systems Flow Analysis

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Hub | 2024 - Present

- **Developed interactive web applications** and scalable platforms following strict SDLC methodologies.
- **Improved operations by conducting systems analysis**, documenting technical flowcharts, and delivering clear code.

Open Source Contributor

[Open Source Projects](#) | Completed

- **Uber (PR #1031): Investigated problem areas** and developed robust software solutions using Test-Driven Development (TDD).
- **Google (PR #567): Provided critical operational information** by analyzing and summarizing software development issues.
- **Adobe (PR #10560): Demonstrated scalable solutions** through clear code comments and rigorous testing for interactive UI components.

Projects

Smart Local Business Inventory & Billing System

Interactive Application

Node.js, PostgreSQL, SQL, ORM Technologies, Web Frameworks

- **Designed a highly interactive web application** using modern frameworks and relational databases.
- **Prepared and installed backend solutions** by determining system specifications to reliably handle 10,000+ daily workloads.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Software Engineering, Database Systems, Data Structures

CS50 Programs

Harvard University (Online)

Certifications: [CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Achievements

- **Founder – [Shoot the Breeze](#): Evaluated analysis and problem definitions** to develop scalable software solutions for digital platforms.
- **Publication – [Peer-reviewed research paper](#) on [Stock Market Analysis and Prediction using ML](#).**
- **Rank 3 at VIT Vellore – [Goldman Sachs India Hackathon 2026](#)**, outperforming **500+ participants** in algorithmic problem solving and coding.

Certifications

- [AWS Solutions Architect](#) and [Developer](#)
- [OCI 2025 Certified Developer Professional](#)
- [Google Generative AI Leader](#)
- [Google Cloud Computing Foundations](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [Software Engineer Certification - HackerRank](#)
