Summary

Nimble, agile **Software Engineer** with a proven track record of building scalable, distributed systems and lightweight reactive microservices. Deeply committed to backing the broader engineering community through major open-source contributions. Expert in event-driven architecture, caching solutions, and leveraging GenAI tools (GitHub Copilot, LangChain) to accelerate delivery.

Skills

Backend & Architecture: Java, Kotlin, Spring Boot, WebFlux, Event-Driven Architecture, Microservices

Data & Messaging: PostgreSQL, Apache Kafka, Cassandra (NoSQL), Redis (Caching), Asynchronous APIs

Tools & Methodologies: GitHub Copilot, GenAI, Agile, Cross-Functional Collaboration, Distributed Systems

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Hub | 2024 - Present

- Functioned as a core member of a cross-functional agile team to build next-generation technical capabilities, accelerating spatial data collection by **40%**.
- Ensured solutions were highly testable and extensible, successfully participating in design and code reviews across 3 major product launches.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Mentored less experienced engineers and collaborated with stakeholders to refine Epics, improving operational efficiency for **15+ local clients**.

Projects

[Real-Time Stock Market Data Pipeline](#)

FinTech & Event-Driven Architecture

Python, Apache Kafka, PostgreSQL, Distributed Systems, Asynchronous APIs

- Engineered a mission-critical FinTech data pipeline using **Kafka** and **PostgreSQL** to process high-throughput financial market events in real-time.
- Implemented scalable, event-driven architecture and messaging to support continuous service availability and high SLAs.

[AI Workflow Automation Platform](#)

Distributed Systems & GenAI Delivery

GenAI, Webhooks, Redis Caching, Microservices, API Development

- Built a scalable, distributed application by optimizing overall performance and leveraging **Redis caching**.
- Utilized state-of-the-art **GenAI tools** (Copilot) to accelerate delivery of robust SDKs, webhooks, and intuitive Developer Portals.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Coursework: Distributed Systems, Computer Science, Statistics

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Achievements

- [Open Source Contributions](#) – Deeply committed to the engineering community. Resolved **13+ issues** and submitted **17+ PRs** to major repositories like [Uber CausalML](#), [scikit-learn-contrib](#), and [Grafana](#).
- Rank 3 at VIT Vellore (All India Rank 4979)** – [Goldman Sachs India Hackathon 2026](#) | Score: 250.13

Certifications

- [Google Cloud Computing Foundations](#)
- [AWS Solutions Architect](#) and [Developer](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- [Google Generative AI Leader](#)
- [Software Engineer Certification - HackerRank](#)
