Summary

Analytical and detail-oriented student graduating in 2027, passionate about solving complex operational bottlenecks. I thrive at the intersection of data analysis and project management, leveraging insights to pilot process improvements and reduce defects. I enjoy rolling up my sleeves to collaborate with cross-functional teams, implement continuous improvement strategies (like Kaizen and 5S), and ultimately deliver a world-class experience for end customers.

Skills

Operations & Strategy: Process Improvement, Project Management, Kaizen LEAN Methodology, Cross-functional Leadership

Data & Analysis: Extensive Data Analysis, Advanced Excel (Macros, Look-ups), Python, SQL

Core Competencies: Bottleneck Identification, Performance Auditing, Stakeholder Communication, Adaptability

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Research | 2024 - Present

- Collaborated with agricultural experts to analyze spatial datasets, successfully identifying and eliminating **critical operational bottlenecks** in data pipelines.
- Recommended and piloted process improvements that **accelerated spatial data processing by 40%**, ensuring high-quality data delivery for **3 major product launches**.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Partnered with **15+ local business owners** to audit day-to-day operations, identifying inefficiencies that caused financial leakages and process delays.
- Developed and deployed custom operating plans, **reducing manual data entry defects by 60%** and improving **customer service response times by 3x**.

Relevant Projects

[Smart Local Business Inventory & Billing System](#)

Supply Chain & Operations

Process Control, Advanced Excel (Macros/Look-ups), Data Dashboards, Performance Tracking

- Designed a centralized system for local shops to track inventory levels, monitor supplier performance, and analyze sales trends to prevent stockouts during peak times.
- Created automated data reports using Excel Macros and custom dashboards to process daily operational metrics, helping shop owners make fast, data-backed supply chain decisions.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | Coursework includes Data Analysis, Statistics, and Optimization.

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Leadership & Achievements

- Team Collaboration** – Led a cross-functional team to secure Rank 3 at the VIT Vellore Goldman Sachs India Hackathon 2026 (All India Rank 4979), successfully delegating tasks and managing strict project timelines.
- Certifications** – [AWS Solutions Architect](#), [OCI 2025 Certified Developer Professional](#), and [Google Gen AI Leader](#), demonstrating a strong ability to master complex cloud technologies.
- Open Source Contributor** – Successfully resolved an unclear XGBoost failure in **Uber's CausalML** repository by diagnosing an OpenMP dependency issue, improving error messaging, and merging the fix upstream.
