Summary

Results-oriented student (graduating 2027) with a passion for Program and Knowledge Management (KM). I specialize in analyzing organizational data, breaking down silos, and building systems that acquire and share critical information. With strong interpersonal skills and a deep understanding of databases (SQL, Data Mining), I thrive on collaborating with cross-functional stakeholders to create engaging, data-driven KM strategies that improve business performance and employee satisfaction.

Skills

Program & Knowledge Management: KM Strategy Governance, Lifecycle Management, Process Improvement, Employee Engagement, Exception Based Reporting

Data & Analysis: SQL (MySQL, PostgreSQL), Data Mining, Advanced Excel (Macros, Look-ups)

Core Competencies: Stakeholder Management, Team Leadership, Critical Thinking, Evaluating Performance Metrics

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Research | 2024 - Present

- Managed the extraction of critical technical knowledge from SQL databases, standardizing processes for **cross-functional teams** and reducing **data retrieval time by 50%**.
- Evaluated performance metrics against critical success factors, driving continuous improvement that successfully supported **3 major product launches** and increased **stakeholder satisfaction by 40%**.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Championed best practices in **knowledge sharing** for **15+ local businesses** by developing digital platforms that centralized operational data and client histories.
- Directed training for **20+ staff members** on new digital tools, fostering a continuous learning environment that **reduced operational defects by 35%**.

Projects

HR Workforce Intelligence Platform

Workforce Analytics & Engagement

Knowledge Management, SQL, PostgreSQL, Data Mining, Performance Analytics

- Developed an enterprise analytics platform utilizing **data mining** and SQL to capture, validate, and organize vast amounts of structured workforce and employee engagement data.
- Created interactive dashboards to monitor performance metrics and productivity, providing leadership with actionable insights to further streamline **knowledge-sharing policies** across the organization.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: **2027 : 8.4/10 CGPA** | Coursework includes Data Analytics, Statistics, and DBMS.

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#)

Leadership & Achievements

- Stakeholder Management & Team Leadership** – Led a cross-functional team to secure Rank 3 at the VIT Vellore Goldman Sachs India Hackathon 2026, arbitrating responsibilities and managing tight deadlines.
- Certifications** – [AWS Solutions Architect](#), [OCI 2025 Certified Developer Professional](#), and [Google Gen AI Leader](#), demonstrating a strong ability to master complex cloud technologies.
- Open Source Contributor** – Contributed to **Uber's CausalML** by diagnosing an unclear XGBoost failure on macOS, documenting the correct OpenMP dependency, and improving error messaging for global users (merged upstream).
