Summary

Software engineer (graduating 2027) skilled in **automating infrastructure**, developing **monitoring solutions**, and **resolving production issues**. Proficient in Python, C/C++, Java, and SQL on **Linux/Unix**. Proven ability to build robust **CI/CD pipelines** and drive operational excellence for flawless customer experiences.

Skills

Programming Languages: Python, Java, C/C++, SQL, Bash (Unix/Linux Shell Scripting)

Infrastructure & Automation: Linux/Unix Administration, GitHub Actions, Docker, AWS, Kubernetes

Monitoring & Operations: Prometheus, Grafana, Production Support, Troubleshooting, Log Analysis

Work Experience

App & Web Developer

[CropSky](#) | VIT-TBI Research & Innovation Hub | 2024 - Present

- Maintained internal Python tools; **diagnosed and fixed production issues** in **Linux** environments, ensuring 99.9% uptime.
- Deployed **automated monitoring solutions** and executed complex **SQL queries** to proactively detect and prevent system outage.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Built tools to **automate daily operational activities** for 15+ businesses; configured scalable cloud infrastructure for continuous workflows.
- Troubleshot software configuration** challenges, prioritizing high-impact issues to improve the end-user customer experience.

Projects

AI-Orchestrated DevOps Automation Platform

Infrastructure & CI/CD Automation

Python, Docker, Kubernetes, Linux, GitHub Actions, Terraform, Prometheus, Grafana, Bash

- Engineered a DevOps automation platform to streamline **CI/CD pipelines**, Kubernetes deployments, and infrastructure provisioning.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: 2027 : 8.4/10 CGPA | STEM Coursework: OS, Database Systems, Networking

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#) – Python, SQL, C/C++, Data Structures, Memory Management

Publications

- Published a [peer-reviewed research paper](#) on [Stock Market Analysis and Prediction using ML](#) – designed automated data pipelines for large-scale analysis. [El Ruha Conference](#), 2025.

Achievements

- [Open Source Contribution](#) – Contributed to Hack Club open-source projects by resolving 3 GitHub issues and submitting a pull request (pending review).
- Rank 3 at VIT Vellore (All India Rank 4979)** – Goldman Sachs India Hackathon 2026 | Score: 250.13

Certifications

- [Google Cloud Computing Foundations](#)
- [AWS Solutions Architect](#) and [Developer](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- [Google Generative AI Leader](#)
- [Software Engineer Certification - HackerRank](#)
