Summary

Detail-oriented QA practitioner pursuing an Int.MSc at VIT University (2022-2027) with hands-on experience in manual GUI and functional testing of consumer-facing device applications. Skilled at executing documented test instructions accurately, reporting deviations promptly, meeting daily quality targets, and following defined QA processes; knowledgeable in QA methodology and software testing tools across desktop, mobile, and smart device platforms.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Coursework: Software Engineering, Data Structures & Algorithms, Database Systems, Computer Networks, Machine Learning, Statistical Analysis

CS50 Programs

Harvard University (Online)

[CS50x](#), [CS50P](#), [CS50AI](#), [CS50SQL](#), [CS50R](#) – algorithms, Python, SQL, AI, and full-stack application development.

Skills

Testing & QA: Manual Test Execution, GUI Testing, Functional Testing, Black Box Testing, Regression Testing, Consumer Device Testing, Cross-Platform Testing, Deviation Reporting, Defect Logging

QA Operations: Test Instruction Adherence, Daily Target Execution, Process Compliance, Result Reporting, Defect Escalation, QA Methodology & Tools, Software Validation, Data Capture

Tools & Platforms: Python, SQL, Git, Linux, Docker, Postman, Windows Desktop, Android & iOS Mobile, AWS (Certified), Prometheus, Grafana

Work Experience

Founder

[Shoot the Breeze](#) | 2023 - Present

- Executed manual GUI and functional test cases for consumer-facing application interfaces across desktop and mobile builds; followed documented test procedures, reported deviations and failures accurately, and consistently met daily quality and productivity targets.

App/Web Developer

[CropSky](#) | VIT-TBI Research & Innovation Hub | 2024 - Present

- Performed functional and regression testing of web application GUI features; logged defects and deviations promptly, adhered to defined QA processes, and communicated test results clearly to the engineering team.

Projects

AI Hearing Assistant Application

Consumer Device QA

Flutter, Dart, Python, FastAPI, WebSockets, PyTorch, ONNX Runtime, AWS, Docker, Prometheus, Grafana

- Executed manual GUI and functional test cases for a consumer-facing smart device application across Android and iOS platforms; validated listening mode interfaces (Conversation, Indoor, Outdoor, Music, TV), reported UI deviations and behavioral defects accurately, and performed regression testing across application builds following documented test instructions and defined QA procedures.

Certifications & Achievements

- [Google Generative AI Leader](#)
- [Google Cloud Computing Foundations](#)
- [FreeCodeCamp Legacy Full Stack](#)
- [OCI 2025 Certified Developer Professional](#)
- AWS [Solutions Architect](#) and [Developer](#)
- [Software Engineer Certification - HackerRank](#)
- Published a [peer-reviewed research paper](#) on [stock market analysis and prediction using ML](#) in the 14th proceedings of the [El Ruha International Conference on Scientific Research](#), pp. 730-740, 2025.
