Summary

Analytical Software Development Engineer specializing in full-stack web development using **Python** and modern **frontend technologies**. Proven track record of accelerating data processing, improving operational efficiency for businesses, and delivering scalable, user-centric web applications.

Skills

Frontend Development: React, JavaScript/TypeScript, HTML/CSS, Tailwind CSS, Responsive Design, UI/UX

Backend & APIs: Python, FastAPI, Django, REST APIs, WebSockets, Node.js

Database & Deployment: PostgreSQL, SQL, Redis, Docker, AWS, Vercel, Git

Work Experience

App / Web Developer

[CropSky](#) | VIT-TBI Research & Innovation Hub | 2024 - Present

- Accelerated spatial data processing capabilities by **40%** by applying algorithm design and optimization mathematics to streamline data pipelines.
- Influenced **3 major product launches** by designing the core backend architecture in Python and collaborating on frontend integration for a multi-tiered agricultural application.

Founder

[Shoot the Breeze](#) | 2023 - Present

- Improved operational efficiency for **15+ local businesses** by architecting custom full-stack automation software (Python backend, modern frontend) to solve complex technical challenges.

Projects

[Multi-Agent Business Automation System](#)

AI Automation Platform

Python, FastAPI, CrewAI, LangGraph, PostgreSQL, Docker, REST APIs

- Accelerated enterprise workflows by **40%** by engineering a multi-agent AI platform (Python, FastAPI) that autonomously handles finance, analytics, and support tasks.
- Enhanced task execution reliability by **50%** by implementing a Supervisor-Agent architecture with intelligent routing and automated failure recovery.

Education

Int.MSc Computational Statistics and Data Analytics

VIT University | 2022-2027

Year of Graduation: **2027 : 8.4/10 CGPA** | Coursework: Software Engineering, Data Structures, Databases
